I am a 21-year-old artist hailing from the culturally rich town of Kannur in Kerala, India. I am currently in my final year of Bachelor of Visual Arts (BVA) at Chamarajendra Government College of Visual Arts (CAVA), Mysuru, Karnataka. I aim to convey the intricate relationships between humans and animals through sculptures by emphasising coexistence and compassion.

I am an aspiring game designer from Pune. I completed my Bachelor of Fine Arts (BFA) in Digital Media Arts from Srishti, Bengaluru. During this course, I specialised in 3-D modelling and animation. I enjoy playing games, such as We Happy Few, Resident Evil, and Dying Light. I also enjoy creative writing, acting, and yoga.

Kavya Kottary

I am a 25-year-old artist from the vibrant town of Mangaluru. I am currently pursuing my passion for the visual arts at Chamarajendra Government College of Visual Arts (CAVA). From a young age, my heart has been captivated by the enchanting world of art, a passion that often overshadowed my interest in academics.

Yadhunandan N

As a visual artist captivated by the poetry of materials, I extend an invitation into a world shaped by the magic of Nurva—a distinctive blend of wood powder, charcoal powder, and tree resin. For a decade, I have sculpted narratives that transcend the tangible, breathing life into form and substance. I aspire to transcend the boundaries of my craft, unlocking the secrets within each particle of my chosen medium.
